CDAC Final Project – Feb 2026

Sunbeam Institute of Information Technology - Pune

Project Mentor - Manjusha Nikam

The Team

Aditya Yadav

Anmol Mittal

Vijay Kumar Kushwaha

Bhavesb Vakare

Problem Statement

- Traditional exam preparation lacks personalization and real-time feedback
- Students struggle to track progress and identify weak areas
- Limited availability of structured mock tests and analytics
- No centralized platform for courses, tests, and performance tracking

Objectives

- Develop a centralized platform for exam preparation
- Provide online tests, quizzes, and mock exams
- Track student performance with analytics
- Offer course-based structured learning
- Enable real-time result evaluation

Scope of the Project

- User registration and login system
- Course and exam management
- Online test conduction
- Automated result generation
- Performance analytics dashboard
- Admin panel for managing content

Functional Modules

- User Module: Registration, Login, Profile
- Admin Module: Manage courses, exams, questions
- Exam Module: Conduct tests, timer, submission
- Result Module: Evaluation and analytics

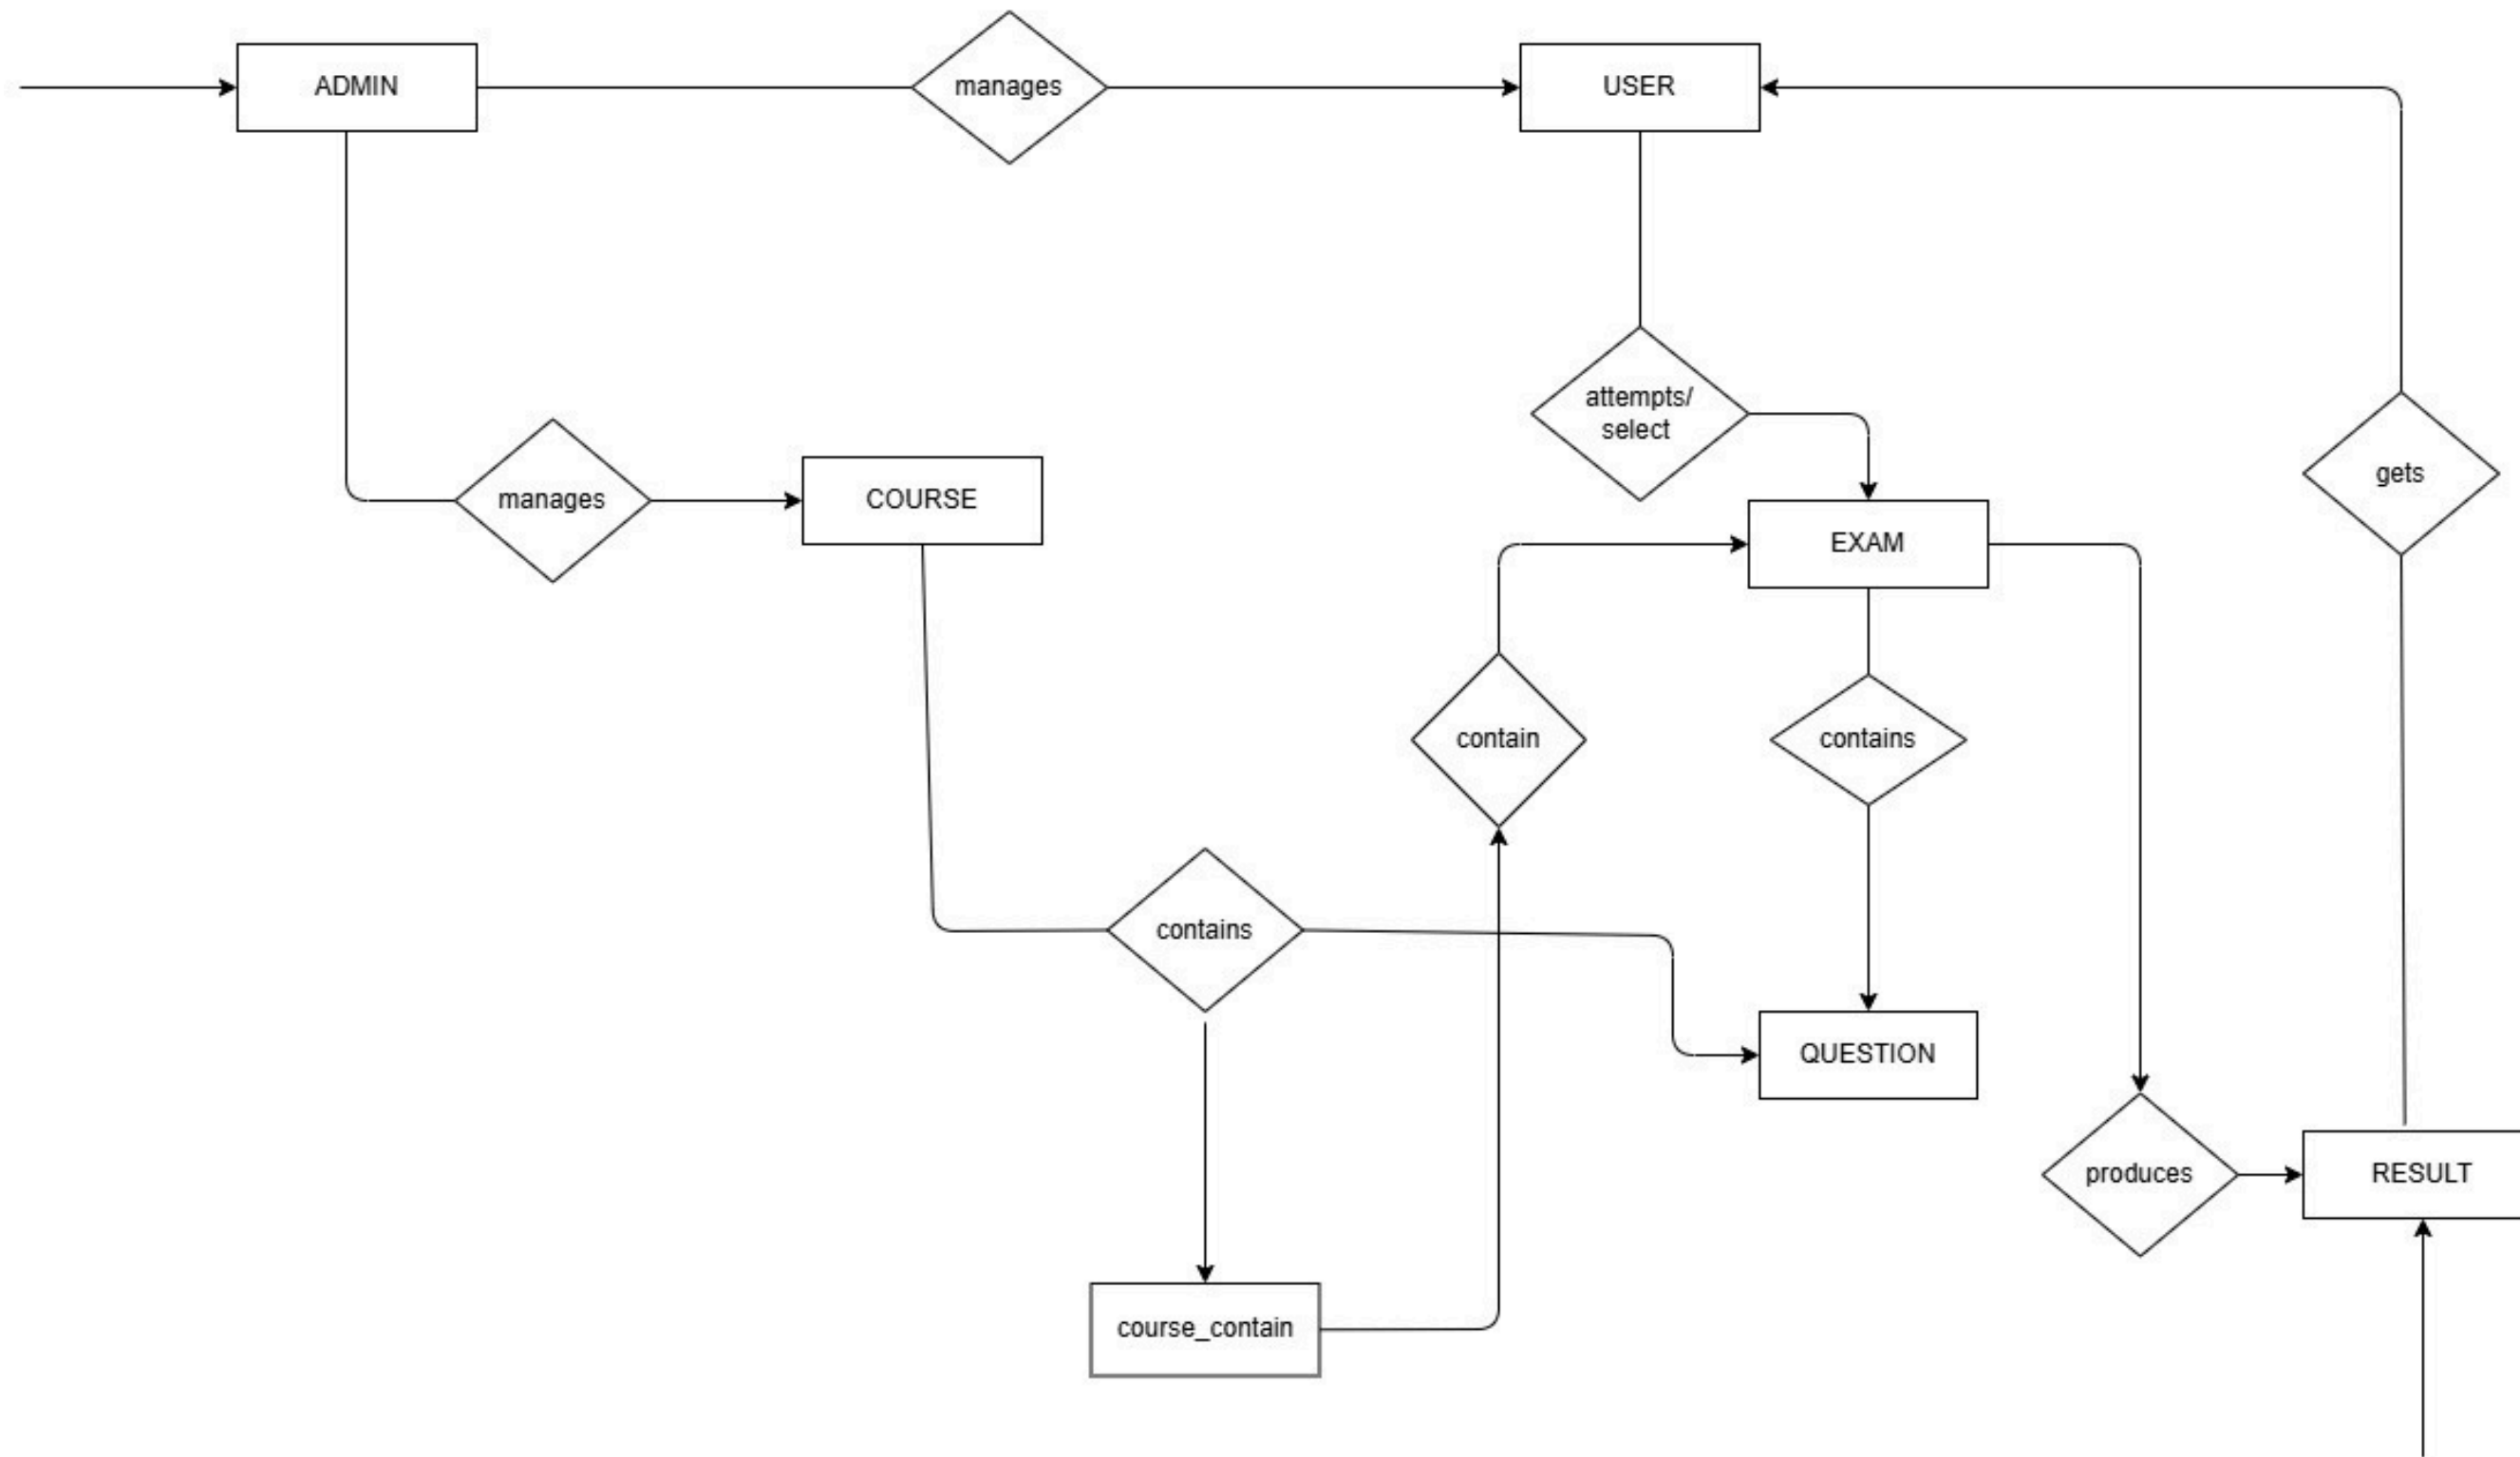

Key Features

- User authentication (Login/Register)
- Course enrollment system
- Timed online exams
- Multiple question types (MCQ, True/False)
- Instant result and feedback
